

# THE STOSH BROTHERS

## FOR PRESENTATIONS

THROTTLE DAYS

The Stosh Brothers, the riders and filmmakers behind Throttle Days, are available for your club meeting or store event. *Real* riders talking to *your* riders about their trips, and how regular guys and gals can film their motorcycle adventures.

The Stosh Brothers will arrive by bike at your club or business location, carrying the equipment they use to make their movies. Their 1-2 hour presentation can be custom crafted for your venue. Sometimes irreverent, always entertaining, the Stosh Brothers are perfect for an afternoon coffee session or a late night drinking bonanza.

**What's it About:** The Stosh Brothers talk about what they know and love: riding motorcycles and making movies. This is not a how-to session on camping, world travel, or maintenance. This is not a travelogue. Their presentation is an every-man's inspirational talk on having motorcycle adventures and capturing those adventures to video tape. If you ever took a motorcycle trip and dragged your video camera with you, this presentation is for you.

In addition to talking about their background and the Throttle Days trips, the Stosh Brothers discuss in detail the ins and outs of motorcycle filmmaking. They offer practical examples and how-to instruction for the beginner motorcycle filmmakers, covering such topics as:

### Why Film?

What camera to use

What equipment do you need?

Camera shots & Angles

Packing your gear

### Homemade Camera Mounts

Magic Broomstick Technology

Editing your movie

10 Misconceptions about Making a Motorcycle Movie

Putting your movie to DVD or Web

Tired of taking a road trip and returning home with half a tape of worthless raw video which no one will ever see? Put that camera to use with the techniques explained by the Stosh Brothers. Whether it's for family, fun, or funding, make a motorcycle movie that will capture your adventures for a lifetime.
